Conference Fee

If registered **until August 19th, 2011**
Per Person: € 620,00
Member of OTTI/
Supporting Organisation € 540,00
If registered **after August 19th, 2011**
Per Person: € 720,00
Member of OTTI
Supporting Organisation € 650,00
Reduced fee for presenters:
€ 310,00

From the third participant on, every other participant of your company profits from our **15 % discount** on the conference fee. Fees cover the admission to all sessions, invitation to all coffee breaks, lunch, a dinner and the conference proceedings.

- Yes, I will participate in the 3rd European Conference SmartGrids and E-Mobility**
October 17th/18th 2011 (SGM 3822)
- I will submit a paper (<https://review.otti.eu>)**
- I am member of OTTI/Supporting Organisation**
- I am interested in sponsorship/exhibition**

Family name _____

First name _____ Mr/Mrs/Ms/Dr/Prof.

Phone _____ Fax _____

Wernerwerkstraße 4, D-93049 Regensburg, Germany**

Conditions of participation and cancellation

You will receive your registration documents with receipt of your registration. The participation fee is VAT-exempt and due net with receipt of the invoice. Please transfer the invoice amount not later than 14 days before the conference starts. Otherwise a copy of the transfer order must be presented at the conference desk. All bank charges have to be covered by the transmitter. Entrance to the conference can only be permitted if OTTI has received the payment. OTTI reserves the right to make modification and amendments of any kind for urgent reasons. In the case of a cancellation of your registration up to 30 days before the seminar takes place, we do not raise a cancellation fee. For cancellations made within a period of 30 to 15 days before the start of the seminar, we charge a service fee of € 120. In the event of cancellations made later than 15 days before the seminar, or in the case of absenteeism, the total participation fee will be charged, unless you are able to provide evidence of a deviating amount of damages or expenses. The cancellation must be in written form. The person representing the contracting party may be replaced at any time but a written notice is necessary not later than 4 days before the conference starts. Irrespective of legal basis, OTTI shall only be liable for property damage and pecuniary loss which occurred due to intent or gross negligence. The place of fulfilment and jurisdiction is Regensburg, Germany.

For further information about seminars, conferences and upcoming events in the field of Renewable Energies please consult our homepage www.otti.de

The second conference on SmartGrids and E-mobility held in Brussels clearly showed the actuality and dynamic nature of these topics. Smartness is needed in transmission and distribution grids as well as customer interaction to answer the challenges faced in turning energy supply renewable. It also showed that the challenge requires an interdisciplinary approach, demonstrated by the wide range of papers covering everything from technological to system modeling to public acceptance issues. But maybe the most rewarding experience was to see the large number of young, enthusiastic researchers sharing results and ideas and the number of industry participants.

Encouraged by this year's experience, we move the conference to Munich and time it to happen just ahead of the eCarTec Fair. This way it will be easy for the industry to find the opportunity to attend and present their ideas, and for the research community to take a look at what is close to market ready. Mark the dates and start writing on your abstract now, to be actively involved in the event presenting your research and your ideas.

We would like the conference to be a place where industry meets young talent to mutual update and debate each other on the whole interdisciplinary SmartGrid and E-mobility landscape; smart transmission, smart distribution, smart customer interaction and smart mobility.

Welcome to Munich on October 17th-18th 2011!

Petter Støa, PhD

Research Director SINTEF Energy Research, Norway and Senior Visiting Researcher Brunel University, UK

Supporting Organisations

Programme

The two-day programme for this conference will comprise of

- Oral presentations
- Posters

Language of the conference will be English.

Conference Topics:

Papers are invited on the following topics:

1. Smart Grids Initiatives in Europe
2. Business Models for Smart Mobility
3. Smart Integration Technologies and Components
4. Electric Vehicles and Storage
5. Integration of Plug-In-Vehicles
6. Pilot- and Demonstration Projects

Papers will be presented orally and in poster sessions. All accepted papers will be published in the proceedings volume.

The abstract, in English, should include: Full title, author's full name, affiliation, address, phone/fax/e-mail, name and affiliation of co-authors, topic, kind of presentation (oral or poster), a brief summary including the purpose, methods, approach, results and conclusions of the presented work.

The whole on ONE sheet A4. In addition, authors may add up to 1 explanatory page to facilitate the reviewer's assessment.

The submission of your abstract implies a **compulsory** participation in the conference and presentation of your paper or poster. **With the acceptance of your abstract you are automatically registered for the conference. It is not possible to cancel once accepted!**

Deadline for submission of abstracts: April 26th, 2011

Please upload your abstract in our review system under:
<http://review.otti.eu>

You will receive an e-mail with the result of the evaluation.

If you are accepted please upload the ready for printing manuscript (8 PAGES) in our review system by August 19th, 2011. Presenters will get a reduced fee of € 310.00.

You will meet

Regulators, car developers, car manufacturers, utilities, automotive industries, grid operators, engineers and scientists active in the field of renewable energies and storage technologies, electricity power grids, policymakers, consultants, other attendees

Conference Focus

- Development and Application of Technologies
- Exchange of Results and Ideas
- Know-how Transfer
- Identification of R&D Needs
- Presentation of Field Experience

Petter Støa, PhD

Research Director Energy Systems at SINTEF Energy Research in Trondheim, Norway. MSc and PhD from The Norwegian University for Science and Technology (NTNU) in Power Systems from 1981 and 1986 respectively. Has worked on Security of Supply, Expert Systems Applications and End User Metering and Settlement until he became Director of Energy Systems in 1995. Active in Norway and EU in strategic energy system R&D to promote the transition to a renewable energy supply.

Scientific Committee

MSc. & B.Com
Anders N. Andersen
EMD International, Aalborg, Denmark

Dr. A. S. Bukvić-Schäfer
SMA Solar Technology AG, Niestetal, Germany

José Corera
Iberdrola, Spain

Christian Dürschner
Ing.-Büro Alt. Antriebe & Erneuerbare Energien, Erlangen, Germany

Hubert Fechner, MAS, MSc.
University of Applied Sciences Technikum, Wien, Director Renewable Urban Energysystems (MSc.), Head of Renewable Energy Institute, Vienna, Austria

Prof. Dr. Edmund Handschin
University of Dortmund, Germany

Prof. Nikos Hatzigiorgi
NTUA National Technical University of Athens, Greece

Prof. Dr. Joao Pecos Lopes
Faculty of Engineering, Porto University, Portugal

Prof. Dr. Didier Mayer
MINES ParisTech, Sophia Antipolis, France

Frans Nieuwenhout, MSc.
ECN, Petten, The Netherlands

Prof. Dr. Jürgen Schmid
Institute for Wind Energy and Energy System Technology IWES, Kassel, Germany

Dr. Christine Schwaegerl
Siemens AG/Project Green eMotion, Erlangen, Germany

Prof. Dr. Gernot Spiegelberg
Siemens AG, München, Germany

Dr. Petter Stoa
SINTEF Energy Research, Trondheim, Norway

Dr. Philipp Strauss
Institute for Wind Energy and Energy System Technology IWES, Kassel, Germany

Dr. Christof Wittwer
Fraunhofer ISE, Freiburg, Germany

Dr. Eduardo Zabala
Tecnalia, Derio, Spain
